

Word Bank 3000 – Second-Pass Corrections

Entries rebuilt around the first meaning of the English word

Prepared 28 July 2026

All 969 changes from the first pass were reviewed. The problem found again and again was that the earlier pass took whatever the example sentence happened to mean and then rewrote all four translations to fit it. Where the example showed a rare use of a word, the whole entry drifted away from the meaning a learner actually reaches for first – the same way "holiday" drifted from *vacances* to *jour férié*.

This report lists the **209 entries that were adjusted**. For each one you see the definition, example and all four translations exactly as they were before, exactly as they are now, and a plain explanation of why. Everything not listed here was left untouched.

The matching file **vocabulary_adjusted.json** holds the same 209 entries in the original list format, ready to drop back in.

What was fixed, and how often

- **Wrong meaning taught.** Words such as *light*, *post*, *bar*, *bear*, *stick*, *shot*, *champion*, *appropriate* and *web* had been moved onto a rare second meaning. Every one was put back to the meaning a learner meets first.
- **Definition, example and translations disagreeing.** Fixed so all three tell the same story.
- **Broken example sentences** with repeated or missing words. Rewritten.
- **False friends** such as Spanish *asistir*, French *prétendre* and Italian *possibilmente*. Replaced.
- **The four languages not matching in shape** – one a noun, another a verb, another a phrase. Made parallel.
- **Regional and spelling problems:** Latin-American-only words, missing accents, old German spellings, stray capital letters.
- **Repeated words in the list** given matching entries, or split cleanly into two different meanings where that was more useful.

Ex: This book is about a brave knight and a dragon. ES sobre DE über FR sur IT su	Cleaned the translations. 2	above id 3	Def: In or to a higher position than something else. Ex: The birds flew high above the tall trees. ES por encima de DE über FR au-dessus de IT sopra/su/sul/sulla/sullo	Def: In or to a higher position than something else. Ex: The birds flew high above the tall trees. ES capital DE Hauptstadt FR capitale IT capitale	Def: The most important city of a country, where the government is based. Ex: Paris is the capital of France. Ex: Please keep your room clean and tidy. ES limpio DE sauber FR propre IT pulito	Had been turned into the action 'to clean'.
