

Word Bank 3000 – Detailed Change Log

Every translation correction, one by one, for line-by-line verification

Prepared 28 July 2026

This report lists all 969 translation corrections. For each one you can see the word, the example sentence it appears in (which sets the intended meaning), the language, the value that was there before, the value it was changed to, and the reason. Changes are grouped by how confident the correction is, with the ones worth the closest look (Low, then Medium) shown first.

Counts: **24 Low**, **466 Medium**, **479 High** (total 969).

Low-confidence changes – check these first (24)

Cosmetic or borderline. The old value was often already acceptable; the change is a small refinement or a judgement call.

#	Word	Example sentence (the sense being checked)	Lang	Before	After	Why it was changed
